**The Company**

General Seal is one of the largest manufacturers of Mechanical Sealing Systems for Marine, Offshore and Industrial applications. Our 110,000 sq.ft. Manufacturing facility bristles with state-of-the-art machinery and equipment from the best sources worldwide.

Over the years, the company has vigorously pursued a policy of continuous reinvestments in plant and machinery and upgradation has enabled the company to maintain a position of unsurpassed preeminence in the field of seal making.

Combining the pursuit of engineering excellence with a never-say-die customer service has enabled the company to establish synergic rapport with customers worldwide.

**WE MAKE GOOD SEALS, OUR USERS CALL THEM THE BEST**

**The Quality**

Continuous investments in production and quality measurement, inspection and testing equipment every year assures superior quality. The key feature is the traceability of finished goods to original stock sources which helps in analysis of seal breakdowns.

**The Commitment**

The success of an enterprise hinges on basic customer satisfaction. From the inception, our effort has been to meet the needs of customers. Backed by our impressive array of manufacturing facilities, we have ensured delivery of complete systems of complex seals, every time. Such total commitment to customer's cause has been well repaid by the near-total loyalty of our customers.

**The Range**

The company makes diverse ranges of single and double unbalanced, balanced and cartridge seals, having features unmatched in the originals and outlasting these originals by many times over, without compromising performance or cost effectiveness.

**The Service**

We have a highly developed customer interaction programme that aims to keep customer's equipment on-line on-demand. We impart training to customer staff on the nuances of seal handling and installation which helps extend seal life beyond the next planned PMS cycle.

The concepts of sealing technology are working well in practice.

We make good seals, users call them the best.
