

## CNS - Rubber Bellow Seal with Lug Drive

### Features

- **Bi-directional seal**
- **Balanced seal design**
- **Available with Lug-drive saves bellow from torsional forces**
- **Holes in the lugs ensure fluid circulation within seal chamber and prevent accumulation of**
- **Easy to install**
- **Tailor-made to fit existing stuffing box dimensions**
- **Suitable for higher pressures**
- **Available in cartridge designs to suit customer equipment**

### Applications

Industrial, Marine

#### Application Data

Size	15mm to 100mm
Pressure	Upto 25 bars
Temperature	below 200 °c
RPM	3000
Seal material	SS 316 body parts & spring
Elastomer	Neoperne, Viton®, EPDM
Seal faces	Carbon, Tungsten carbide, Silicon carbide, Plasma Sprayed ceramic
